EASY JOB EASY LIFE

EASY LOADING

Compared with U-shaped and I-shapes stringers, X200 uses rectangular closed, high-frequency welding, hydraulic roll forming stringer, the frame can be greatly improved in bending and torsion resistance, and its bearing capacity is 30% higher than that of same level.

User-friendly, technology-based interior,
enjoy sedan-like driving experience

Openable seat storage box

Interior room lights with glasses case

Multimedia system

Instrument panel

EASY DRIVING

All new truck steering system, turning radius smaller than 5.5 meters.
Front independent suspension + disc brake, bring you excellent driving performance

2.0 CTI Diesel Engine—Small-Displacement, large torque and low fuel consumption

Front Disc Brake Provides better brake performance, compared to drum brake, improved 20%

Sedan-like independent suspension

Minimum turning radius <5.5m

Max speed 125km, fuel consumption 9.2L/100KM, energy conservation and environment protection

Openable hood, easy for maintenance

EASY LIFE

Stamping type anticollision beam, side body, a pillar strengthen steel structure

Dual airbags

Reversing radar

Total height 2.2M, large approach angle and departure angle, easy crossing for everywhere
